PROFESSIONAL SUMMARY

Adept at enhancing team dynamics and productivity, I leveraged skills in truss assembly and teamwork at Mullinax Johnson Truss Company to optimize production processes and reduce material waste. My proficiency in forklift operation and commitment to maintaining a clean work environment have consistently contributed to meeting project deadlines and achieving high-quality standards.

SKILLS

- Measurement accuracy
- Heavy lifting
- Truss assembly
- Forklift operation
- Roof trusses
- Teamwork

EDUCATION

Sonoraville High School
Calhoun, GA • 05/2015

High School Diploma

CERTIFICATIONS

- Forklift Certification

WORK HISTORY

Mullinax Johnson Truss Company - Truss Builder

Ranger, GA • 08/2020 - Current

- Enhanced teamwork dynamics by participating actively in group problem-solving sessions and offering constructive feedback when necessary.
- Streamlined production processes, maintaining a clean and organized work environment for maximum productivity.
- Followed supervisor instructions to adjust assembly and building plans.
- Improved warehouse efficiency by skillfully operating forklifts to move, locate, and stack materials.
- Unloaded and stacked materials by raising and lowering lifting devices.
- Collaborated with team members to complete tasks quickly and increase overall productivity.
- Reduced material waste by optimizing the use of lumber and metal connectors in truss construction.
- Rolled machines over truss to embed plates and used finish press to complete secure assembly.
- Met schedule targets by working quickly and with minimal errors on building projects.
- Helped maintain clean, organized and production-safe work areas.
- Placed connector plates at truss joints and hammered into place.
- Examined wood, work areas, and supplies for defects and damage before completing projects.

A+ Home Solutions - Construction Worker

Calhoun, GA • 11/2018 - 12/2019

- Utilized hammers, saws, squares, levels, and fastening devices to complete projects.
- Maintained clean and organized job sites, contributing to a safe working environment for all employees.
- Loaded, unloaded, and moved material to and from storage and production areas.
- Worked in fast-paced environment while meeting productivity and quality expectations.
- Gathered and disposed of worksite debris to remove safety hazards.

- Brought materials and tools from trucks and storage facilities to work site locations and organized for expected needs.
- Contributed to a positive work culture by fostering teamwork among staff through open communication channels, which led to higher overall productivity levels during projects.

Engineered Textile Products - Carpet Cutter

Calhoun, GA • 04/2017 - 05/2018

- Consistently met deadlines while maintaining high-quality standards in every project undertaken.
- Collaborated with team members to complete large-scale projects within deadlines.
- Streamlined workflow processes, resulting in increased overall productivity for the team.
- Maintained a clean and organized workspace, promoting efficiency and productivity.
- Trained new employees on proper carpet cutting techniques, safety procedures, and equipment operation to achieve consistent results across the team.
- Removed unwanted or unneeded materials off desirable products.

Southeastern Lighting & Electric - Electrician Helper

Dalton, GA • 06/2015 - 04/2017

- Pulled wire through conduits and through holes in walls and floors.
- Organized materials and tools in to maintain clean and neat work areas.
- Helped complete system installations, digging trenches, and breaking up concrete.
- Improved workplace organization by maintaining a clean and hazard-free environment for all team members during projects.
- Consistently followed safety procedures when operating power tools or handling hazardous materials, minimizing risk of injury among team members.
- Aided senior electricians in troubleshooting complex electrical issues using diagnostic tools such as multimeters or clamp meters.
- Supported project completion timelines by efficiently collaborating with lead electricians to execute tasks as per schedule.
- Repaired light fixtures, controls, switches, relays, and circuit breaker panels based on detailed evaluations.
- Handled installation of electrical components by splicing, joining, and connecting wire.
